SKILLS

Challenges produce opportunities!

Our challenge: How we, as a poor community would be able to sustain a garden supplying food to a daycare and ourselves?

God's grace, this skill and our passion made it possible as we stand proud today in the work of our hands, both to the children of the daycare and our hand-made products.

DAY CARE

Safe, healthy and educational

Day care to 65 children of disadvantaged community, living in an informal settlement - no running water, electricity or municipal services.

We pride ourselves in giving only the best with our limited resources.

Skills development

The vegetable garden itself does not generate a lot of income, therefore the skills development forms a huge part of keeping the garden team committed in serving the children with the best possible nutrition and to become more self-sustainable.

Corporate Gifts

E kuphumuleni Garden and Studio, in conjunction with SMILE Impact PBO provide products suitable for the general market, but we pride ourselves in doing something a little out of the ordinary. We are a creative bunch of ladies who forget about our surrounding of lack as we lose ourselves in our creativity, producing work of quality.

Nothing gives us more satisfaction than the smile on a clients face, as they touch, feel and enjoy the fruit of our labour.

We do not shy away from a challenge - we have successfully supplied amongst others, over 4800 necklaces as corporate gifts.
